Overview

Learning starts with the games we like, as children. Games play an important part in helping us learn and build important social skills. At Goliath Games we take pride in providing an excellent way for families, friends and coworkers to spend some time together encouraging bonding, inclusion, communication and social interaction.

We specialize in facilitating team building events, such as Scavenger Hunts, The Amazing Race, Giant Game Olympics and setting up Giant Outdoor Games, such as Giant Jenga, Colossal Connect 4 In A Row, Gigantic Cornhole, Mega-Sized Memory. There is something that both adults and children will enjoy playing. Our super-sized outdoor games come alive and bring a new meaning to fun-filled events!

Goals - Teams complete challenges while refining and heightening critical interpersonal functions including:

- Communication
- Collaboration
- Time management
- Leadership
- Lateral thinking
- Calculated Risk-Taking
- Persuasion
- Bold Action

Specifications

Team building means something different for each group and we strive to plan each event to meet your company's goals for the event. Many activities can be structured to work within your schedule.

Whether you want to enhance team camaraderie, improve communication or just have fun, any one of our activities will have them talking for years to come! Our professional fun facilitators will assure a high energy and productive day for all. Let us facilitate your: Corporate Team Building, Fun Days, College Orientation Games, Annual Conferences,

Weddings, Social & Networking Games, Holiday or Private Parties and anything in between!

San Diego

Our sunny San Diego's balmy climate makes a perfect setting for an outdoor team building activity. Whether it's a corporate retreat at the Catamaran in PB or a school orientation program game in Golden Hill Park, your crew will be happy just to get out of the office, but we take it much further than just a day out of the office. Our team building activities will highlight both the characteristics and talents of your team members and the neighborhoods in which they are interacting. We have plenty of places to play in San Diego, and we strive to make your team building idea come to life. So tell us where you want to play!

Team Building Activities

Whether you are looking for a fun event for an offsite meeting or you are in need of strengthening communication between team members, we offer corporate team building events for you and your crew!

Our corporate team building events take place in as little as 1.5 hours, or can last as long as a full day. Each team building event is customized to your requirements and takes place at the location of your choice. We come to wherever you want the event to take place.

Get a complete and instant proposal with full description, logistics and pricing by sending an email with details about your event to: EchoAthleticsCA@gmail.com

Or, check out our corporate team building events for more detailed descriptions. We look forward to working with you and your team!

I. Scavenger Hunts & Amazing Races

Strategy and Leadership games are smart, high-energy interactive team building experiences that take place in an urban setting or the great outdoors. We skillfully combine strategy and risk with professional entertainment, sending players on an unexpected journey they will not forget. Mocking real-life scenarios, each game requires players to strategize and mobilize through a series of assignments leading to an exciting adventure. Players choose the path they want, and, just as in life, their choices decide how well they succeed.

II. Giant Game & Leisure Olympics & Minute to Win It

Active & Performance team building games bring you back to the basics and joy of being a kid at summer camp. Whether it is playing field games or putting on a talent competition, our customizable programs guarantee hundreds of cheers and thousands of smiles.

III. Culinary Challenges - Salsa & Guacamole Making Challenges

Creative & Visionary Games energetically inspire company camaraderie across the board as players showcase their ingenuity. Based on many popular reality competitions, we combine interactive creative tasks with theatrical flare to successfully bring out the ambitious (and comedic) genius in everyone. A perfect solution for an on or off campus activity, these fast-thinking games cultivate brilliant ideas and workable solutions, leaving long-lasting positive effects on your office.

IV. Escape Room

Puzzle & Solution team building games enhance your team's communication and problem solving skills. Whether it's searching out a lost treasure in your city, or trying to find your way out of a locked room, these affordable programs provide a great solution for an effective team building activity when you're on a budget.

V. Guided Hikes, Whale Watching Cruises, Bike Tours

Adventure Tours & Wilderness Exploration Adventures serve as a valuable catalyst to enable your small groups to become more socially aware, connected to their environment, and self-confident as well as develop a powerful, all-inclusive community. Through an intimate outdoor experience, participants learn skills to become peer leaders, acquire a responsible appreciation for the natural wonders of our planet and develop a newfound environmental ethic to carry with them throughout their lives.

VI. Youth Programs | Outdoor Education

Education Outside the Classroom Current educational research indicates that connections with the natural world increase children's ability to learn and also improve self-esteem and social behavior. Recent studies also show that spending time outdoors increases memory up to 20%. Meaningful outdoor experiences are a powerful tool for lifelong impact and learning.

VII. COED Kickball Events

Gals and Guys, young and old, have been playing this recess favorite since it was invented in the United States around 1942. The rules of Kickball are very similar to that of

baseball. However, instead of hitting a baseball, a Kickball player kicks a rubber ball. The goal is to score runs/points by running around and touching all four bases in order without getting out. Kickball is an ideal social-athletic activity that successfully brings together friends, coworkers and people who simply like to help others through the means of Recreation and Play!

VIII. Bike Build Days

A charitable bike build event, gets teams in gear by arming them with wrenches and enthusiasm as they race to build the ultimate human-powered, no-gasoline-needed rockets: children's bicycles! Our Charity Bike Build program facilitators have helped hundreds of companies just like yours build children's bicycles for charity around the world. Many of us likely have fond memories of being given our very first bicycle, maybe as a birthday or Christmas present, with a big bow on the handlebars. Most of the children participating with your company during these events typically are 7-9, the bikes you build will be their first one ever!

“In today’s competitive global marketplace, teamwork, synergy, and effective communication are essential skills for a strong successful organizational foundation and business strategy.”
